"The Center for Turfgrass Science and The New Jersey Agricultural Experiment Station/Rutgers University are proud to support the educational needs of the turfgrass industry as a source of unbiased information for the benefit of communities, individuals and industries in the State of New Jersey and beyond."

WELCOME to GREEN EXPO 2016!

On behalf of the New Jersey Turfgrass Association, the New Jersey Turfgrass Foundation, and all of our presenting partners, thank you for being here.

Our move to the Borgata Hotel has been a success, and all of the partners of Green Expo hope that your experience this year continues to go above and beyond your expectations. The Expo Committee has worked throughout the year to make this Green Expo the very best it can be. But if there are improvements we can make, please share them with us. We want to continue to improve all our attendees' experiences!

As with the legacy of the Green Expo, this year's conference is packed full of world-class education, credits to maintain your professional licenses, and a wide variety of social activities and networking opportunities. Visit with our business partners at the Trade Show to see the most current products and services you can use to improve your operation. And don't forget to enjoy the sumptuous food. These exhibitors show by their presence that they support our industry and many have taken the extra step of providing a variety of sponsorships. We hope that when you make your buying decisions for 2017, you remember the many companies who are supporting our industry. Our show just wouldn't be the same without them.

The NJTA's mission is "to improve our industry through our support of the Center for Turfgrass Science at Rutgers University". Your attendance at this show – as well as the Rutger Turfgrass Research Golf Classic in May, and the Rutgers Turfgrass Field Days in July – helps NJTA fulfill that mission. We are proud of the applicable work that the scientists at the Center conduct for us year in and year out. We rely on them to give us the answers we need for our ever-changing turf problems. The NJTA is quite proud of our Industry/ University partnership; we hope that you feel the same way.

During this year's Expo, please take the time to thank the many people who make this Green Expo great. After all, our many sponsors and educators are the ones who make this show so valuable and fun to attend. Education is, of course, our main feature and we expect that the knowledge you gain will be of great benefit to you. We welcome any suggestions you may have to improve our programs and hope you will continue to be a part of our successful event. It is an honor and pleasure to have you with us!

Welcome to the GREEN EXPO Turf and Landscape Conference. The New Jersey Turfgrass Association (NJTA), in collaboration with the Golf Course Superintendents Association of New Jersey, the Sports Field Managers Association of New Jersey, the New Jersey Landscape Contractors Association, the New Jersey Agricultural Experiment Station, and the Rutgers Center for Turfgrass Science, has put together an excellent education program. I hope that you will enjoy this year's speakers, many of whom are world renowned authorities in turfgrass science. All of the education sessions have been designed to provide you with practical information about cutting-edge topics that affect turfgrass professionals throughout the region.

For more than four decades, NJTA has done an excellent job promoting the Turfgrass Industry in the State and has been an outstanding supporter of the turf research, teaching and outreach programs at Rutgers University. I would like to thank the NJTA and its members for their dedication to Rutgers University and the Turfgrass Industry that we serve. I would also like to recognize Grass Roots for sponsoring the Mix and Mingle Reception on Wednesday, and Storr Tractor Company for providing Lunch to all meeting attendees on Tuesday after the Core Session. Both of these companies, as well as all of the sponsors and companies who are exhibiting at this year's trade show, provide continuous support of the Rutgers Turfgrass Program and help make the GREEN EXPO such an outstanding event. Please take time to visit with all of these sponsors and thank them for their support of this year's GREEN EXPO. Their dedication to Rutgers and the Turfgrass Industry is very much appreciated.

I hope that you will enjoy this year's 41st Anniversary GREEN EXPO as well as the opportunity to socialize and network during the show. Have a great time at the Conference and best wishes for a happy and healthy New Year.

Sincerely,

Bruce B. Clarke

Bruce Clarke, Director
Rutgers Center for Turfgrass Science

NEW JERSEY TURFGRASS ASSOCIATION ANNUAL AWARDS

Congratulations to the Winners!

HALL OF FAME AWARD

Presented annually to a person in recognition of a continuing lifetime commitment of dedication, service, and achievements contributing to the advancement of the turfgrass industry of New Jersey.

DR. BINGRU HUANG
Rutgers University

RECOGNITION AWARD

Presented by the New Jersey Turfgrass Association in recognition of outstanding effort and accomplishments in pursuit of better turf, thereby contributing to the beautification of facilities, a greener world and a more attractive environment.

BRAD PARK
Rutgers University

MEMBER OF THE YEAR AWARD

Presented by the New Jersey Turfgrass Association in recognition of unsurpassed dedication and commitment to NJTA.

SHANNON SKED
AgServe Land Management

ENVIRONMENTAL STEWARD AWARD

Presented annually to a person or organization in recognition of a continuing commitment to environmental preservation and conservation.

MATT CEPLO
Rockand Country Club

The NJGIC represents, promotes and defends the interests of our Green Industry partners through legislative lobbying efforts, education and public relations on both the state and local level. These efforts are coordinated with, and are an extension to, various national industry trade associations such as RISE, PLANET, CROPLIFE and Project Evergreen.

GOLF PROGRAM

TUESDAY, DECEMBER 6, 2016

CORE SESSION 9:00 - 11:30 AM & LUNCH

Music Box Theatre, Casino Level • Credits: Core = 5

9:00 - 9:30 Update on Pollinators and Pesticide Use and Safety
Tim Schuler, NJ State Apiarist

9:30 - 10:30 Pesticide Toxicology "Pick Your Poison"
Mike Reed, Synatek

10:30 - 11:30 NJDEP Update *Stephen Bross, NJ DEP*

9:00 - 12:00 CONCURRENT SESSION-GCSANJ Seminar • Salon A

9:00 - 10:00 Technology in Turf
William Brown, CGCS, Founder & CEO, Turf Republic

10:00-12:00 GCSANJ Superintendent Panel Discussion: "What's Different, What's the Same?"
Innovation, Ideas and Inspiration from 4 Superintendents
GCSANJ has brought together four superintendents from different kinds of clubs to discuss the differences between operations, the ways they are the same, and the lessons they've learned at their clubs. Come prepared with your questions and for animated conversation, and maybe you will discover a few insights that you will be able to use at your golf course next season.
Jason Pierce, Heron Glen Golf Course • Chris Carson, Echo Lake Country Club
