## Lawn Care

### Lawn Care Technician

Farmside's Lawn Care Technician is responsible for providing top quality lawn care for the company's clients while achieving their production goals.

### Summary

- This entry-level position of the team does the production work under the leadership of the Lawn Care Department Manager. This team member is expected to have knowledge of Turfgrass, pests, weeds, and diseases. With a willingness to get the job done and a learning attitude. Responsibilities include doing lawn care applications, identifying and solving potential issues with the client's property and working with other team members.

### What We Offer:

- Great starting Pay
- Matching 401K
- Paid time off
- Health/Dental/Vision
- Work clothes supplied

### Key Responsibilities & Performance Deliverables:

- Perform the Farmside Experience of delivering top-quality professional work on all jobs.
- Own your jobsite. (i.e. close gates, no spray zones, document client needs)
- Application of fertilizers, pre-emergents and weed control on properties
- Promote Farmside's inter-department services to potential clients
- Perform quality work with no call backs.
- Perform assigned production within budgeted labor hours.
- Complete electronic reporting, paperwork, notes and forms accurately daily.
- Prepare the truck with equipment and materials in the morning.
- Unload the truck, equipment and materials at night.
- Maintain a clean and safe work environment, including the work site, trucks, shop, and equipment.
- Train crew members in all skills required to advance.
- Actively participate in team meetings.
- Complete all duties safely with no accidents.
- Report any accidents and/or near misses as per Farmside Safety Policy.
- Perform other types of work during off-peak seasons, i.e. snow events.
- Grow your skills and knowledge of the company and the industry.
- Ensure achievement of Mission Statement standards.

### Knowledge, Skills & Abilities Required:

- Valid driver's license, no points.
- Landscape Industry Certified Technician preferred but not required
- Pesticide Operators License required
- Pesticide License preferred but not required
- High school graduate or GED preferred but not required.
- 1 year practical industry experience preferred.
- Ability to lift 50 pounds.
- Ability to work in varying outdoor weather conditions.
- Ability to follow directions.
- Good communication skills with clients
- Clear knowledge of the Farmside Experience.
